## REMOVE CREASES IN A FLASH

If you need an item of clothing in a hurry and it's sitting in the laundry pile, the last thing you want to do is waste time unfolding the ironing board and waiting for the iron to heat up, especially if it's a fabric you have to take care with. By using a hand-held steamer, you can make sure delicate fabrics are not at risk of damage and can quickly and efficiently remove creases. The new Ultrasteam from Rowenta, £29.99, is ready to get to work within seconds and has enough steam for up to four items in one session. It also has a lint pad to remove hair and particles if you need to refresh a garment before wearing it.

**We have one Rowenta Ultrasteam to give away. To enter send your details to Your Home March Rowenta Giveaway, The Tower, Phoenix Square, Colchester, Essex, CO4 9HU. Closing date 31st March 2008.**
